SSM Series Alarm Bells

Section: Audio/Visual Appliances

GENERAL

System Sensor's **SSM Series** alarm bells are low-current, high-decibel notification appliances for use in fire and burglary systems or other signaling applications. They come pre-wired to reduce installation time, and also incorporate a polarized electrical design for use with supervision circuitry.

Reliable performance. SSM Series alarm bells provide loud, resonant tones. They operate on 24 VDC and are motor-driven.

Simplified installation. For indoor use, SSM Series alarm bells mount to a standard 4" (10.16 cm) square electrical box. For outdoor applications, a **WBB** weatherproof backbox is used.
